General Information

Analyzed on: September 19, 2025 at 09:24 AM

Video Duration: 11.57 seconds

Analysis Results

Predicted Event: roadaccidents

Confidence: 95.00%

Event Summary: A surveillance video captured a series of escalating events on a city street. It began with a police car stopping near a group of pedestrians. Then, a bus veered sharply towards pedestrians, ultimately crashing into a crowd, causing significant injury. The video also shows other pedestrians walking on the sidewalk and one nearly struck by a vehicle at a busy intersection, possibly illustrating the general chaotic and dangerous conditions on the street prior to the bus crash.

Detected Events

| Event | Start Time (s) | End Time (s) | Start Frame | End Frame |
|----------|----------------|--------------|-------------|-----------|
| Event 1 | 0.17 | 1.20 | 5 | 36 |
| Event 2 | 1.33 | 2.37 | 40 | 71 |
| Event 3 | 2.50 | 3.53 | 75 | 106 |
| Event 4 | 3.67 | 4.70 | 110 | 141 |
| Event 5 | 4.83 | 5.87 | 145 | 176 |
| Event 6 | 6.00 | 7.20 | 180 | 216 |
| Event 7 | 7.27 | 8.40 | 218 | 252 |
| Event 8 | 8.43 | 9.47 | 253 | 284 |
| Event 9 | 9.50 | 10.53 | 285 | 316 |
| Event 10 | 10.67 | 11.53 | 320 | 346 |
