EchoLens Video Analysis Report

General Information

Analyzed on: June 23, 2025 at 10:36 PM

Video Duration: 25.70 seconds

Analysis Results

Predicted Event: Fight

Confidence: 80.00%

Event Summary: The surveillance footage depicts a series of escalating incidents within a store. It begins with a group shoplifting, which then escalates into a violent assault. Following the assault, a person is seen fleeing the store after causing significant damage and scattering merchandise, possibly a consequence of the earlier robbery or a separate act of vandalism. The footage also shows the aftermath of a break-in, with a shattered entrance door and strewn merchandise, further indicating a robbery.
